

# Semak Charcoal Rotisseries

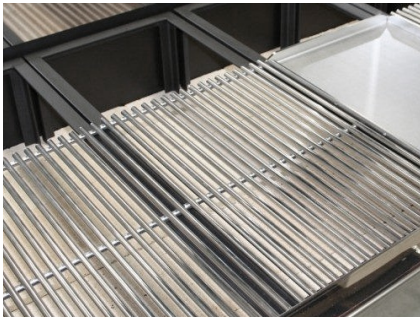

Designed to roast juicy succulent chicken, lamb, pork & beef, Semak introduce the M28C Charcoal Rotisserie. With a heavy duty stainless steel construction the M28C is built to withstand the toughest conditions. The charcoal nature of the machine produces plump chickens with a distinct Smoky aroma and taste. Featuring a charcoal cooking pit with a layer of replaceable heat resistant fire bricks in order to maximise heat transfer, the M28C can evenly cook up to 28 birds at one time.

For that unique charcoal taste, the Semak M28C delivers time and time again.

With a carbon steel firebox, fireproof paint finish and quality components, Semak Charcoal Rotisseries set the standard in charcoal grilling in Australia.

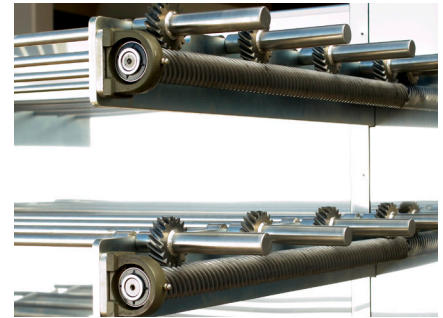

Accessories include: Lamb Spit, Baskets, Stainless Steel Grill and Stainless Steel Plate
