

# Semak EcoDry Hand Dryers

Designed for the health and hospitality industries, this heavy duty commercial grade unit is an exceptional performer boasting superior durability and performance.

Semak EcoDry Hand Dryers wind dry hands in 10-15 seconds rather than using heat, at a fraction of the running cost of conventional Dryers. The Infrared Smart Sensor detects the ambient temperature and activates the elements if below 25°C.

The quiet yet powerful Semak Hand Dryer is fast and effective, offering a cheap and hygienic alternative to paper towel. Perfect for any commercial, retail or industrial application.
